PTFE Tie Cord and Tape

Manufactured by Heatsense Cables this Braided PTFE coated glass yarn gives superior strength and flex life.

Available in Natural (white) as standard it is used for tying of electrical and electronic wiring harnesses in aerospace applications.

Terminals

We offer a comprehensive range of high-quality terminations and copper components, including **heavy duty terminal lugs – type HD** and **standard duty terminal lugs – type NT** all **manufactured** in the UK using only **optimum purity, original mill produced copper**.

Rapstrap

An alternative to conventional cable ties. This tie has a uniquely soft, flexible, and elasticated design.

Each strap can reduce your waste by providing several ties. Rapstraps are fully releasable & reusable.
